

AUTHOR VISIT — BOOK ORDER FORM

Author, photographer, scientist, and explorer Jim Mastro will be visiting your school! Jim's most recent books, the first two in the science fiction trilogy *Children of Hathor*, will be offered at a discount for this visit. If you would like to order copies of *The Talisman of Elam* and *The Hand of Osiris*, please fill out and return the order form below.

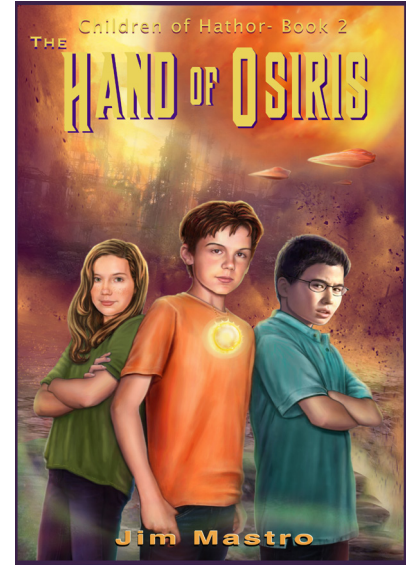

Jim has trained seals and sea lions, rescued wild dolphins, participated in field research, and explored the ocean floor under the ice in Antarctica. He has been a professional photographer, has taught college biology and English, and is the author or co-author of six books, including the photographic memoir *Antarctica: A Year at the Bottom of the World*. In 2012 he was named author-in-residence for the Dover (NH) Middle School, and *The Talisman of Elam* was an official selection for the Dover School District reading program (Dover Reads).

Eons ago, great forces were set in motion by a now-extinct race whose technology was so advanced that the surviving pieces seem to operate as if by magic. Now those forces are coming to a head, and twelve-year-old Jason Hunter finds himself at the center of a gathering storm that threatens all humanoid civilization in the galaxy.

In *The Talisman of Elam*, Jason discovers a spaceship buried in the woods behind his home. Pursued by aliens, he is forced to flee the Earth on a desperate mission to rescue his abducted parents and save his planet. To succeed, he must claim an ancient talisman hidden somewhere among the stars — if he can find it in time!

In *The Hand of Osiris*, Jason and his two friends are abducted from their school in broad daylight. War is about to consume the galaxy, and the only way to stop it is for Jason to get his hands on another ancient talisman. He can't claim this one, though. He has to do something far more dangerous: he has to steal it!

ORDER FORM for *The Talisman of Elam* and *The Hand of Osiris*
